New York, NY 10128

Chanel Partner introductory form

Since 1987 Atomic Bytes Systems Data Recovery Services has established a standard of excellence and provided some of the most effective and creative data recovery procedures and solutions in the data recovery industry.

Atomic Bytes Data Recovery Services provides only the best and most creative data recovery services for all devices and media such as hard drives, all forms of Raid arrays, very large disk systems such as SAN (Storage Area Network), The latest DLT Tape Technology and many different platforms of hardware and operating systems including wireless devices such as hand held blackberrys, networked PCs, and large scale server hardware loaded with operating systems such as Windows/95/98/ME/XP/2000/2003 family of Microsoft operating systems, Unix, Linux, VMS and others.

Atomic Bytes Data Recovery Services has full service data recovery facilities world wide to handle our international clients needs.

We will provide a high level of service from the moment your hardware and/or data media arrive until the moment it has been processed and that a highly effective strategy will be devised and implemented for every case no matter how complicated and no matter how big or small. Our goal is to provide only the best service possible to our clients which is why we have our: **No Data ==> No charge policy** which means if after detailed and reported exhaustive measures have been taken and we can not retrieve your data there will be absolutely no charge and a full account of what was done will be sent back to the client which in our experience has been rare..

Our customers report 100% satisfaction on all services Atomic Bytes Data Recovery Services provided.

Ask us about our new soon to be released dedicated Web site exclusively designed for Data Recoveries Full Fledged Reseller Program and **ON - LINE CASE TRACKING.**
